description

This course is for those that have already had prior tuition and or experience and are looking to advance past the introduction horsemanship stages.

The ground skills or on-line segment prepares you for the use and advancement to longer lines and where appropriate gives an introduction to work in the round pen.

The ridden section aims to advance riders onwards from the introduction course and help riders learn practical skills that they can apply to everyday situations. This segment of the course aims to help riders learn how to improve your horse's impulsion from the horse that won't go to the horse that has too much go..

Depending on the level of course participants this course would have ground skills in the morning and riding in the afternoon.

To apply for a course, please download an application form by clicking on the button below. Further details on course pricing can be found on page 3 of the form.
